- Andrew Child

# Introduction

## Amenities

### Toilets

Barring emergencies, digging catholes should be avoided when climbing at the Garden Main area. As an alternative consider driving 1.9 miles back towards sweet home to use the pit toilets outside of sunnyside park. The three minute drive will take roughly the same amount of time as finding a secluded spot and digging a hole and you won't have to worry about squatting on a patch of poison oak. Likewise all of the areas in this book exist within a 5 minutes drive of a toilet or pit toilet.

### Camping

Paid campsites can be reserved at Sunny Side Park 1.9 miles away from the Garden Main area. Dispersed camping is allowed on any of the pullouts on Quartzville Creek road East of Green Peter Reservoir. Camping is not allowed at the Garden Main or Upper Garden areas.

## Local Ethics

The Garden Main, Armageddon, and Pink Tag areas are located on private land owned by the Cascade Timber Company. The company allows walk in access to their land, but there is no official relationship between the landowners and climbers. The established ethic for climbing on timber land in Oregon is that the owners prefer not to get involved, consequently climbers should do their best to keep a low-ish profile and ensure the land owners don't need to get involved. There are a few specific activities which could threaten access for everyone:

- Building fires or causing fire hazards.
- Parking on or blocking gated forest roads.
- Overnight camping at the climbing areas.
- Failing to obey posted fire closures.

## We like the moss

The lush moss coverings that adorn the boulders are an essential part of the area's charm. When cleaning boulders try to take a conservative approach and avoid demossing unnecessary parts of the boulder.

## History

PLACEHOLDER

## Poison Oak

The Pink Tag and Armageddon areas are both plagued by poison oak. Tread carefully and watch out for low growing shrubs with waxy leaves in clusters of three.

**Poison Oak. Don't touch**

## How to use this book

### Grades and Descriptions

As much as possible the grades and descriptions of routes in this book have been based on the collective first hand experience of the collaborators of this book. Instances where first hand experience is limited or unavailable are acknowledged in the route description and speculation on grades is avoided when possible. Routes in this book are graded on the Hueco V scale. Although these grades are inherently subjective, care has been taken in considering the grading of each route. A color coding system is applied for ease of use as described below.

**Routes V0-V3**

**Routes V4-V6**

**Routes V7-V9**

**Routes V10+**

**Projects and Unknown Grades**

## Ratings for Quality and Seriousness

In addition to a difficulty rating, route quality and seriousness ratings are provided on an out of three system as defined below.

### Quality:

- ★★★ - This route is an area classic, if you are unfamiliar with the area this is one you should check out on your first visit.
- ★★ - This route is charming, but may be lacking one or more qualities of a true classic.
- ★ - This route may leave something to be desired but isn't objectively terrible.
- ☆ - Zero stars, this route is bad.
- No quality rating given, this designation is typically only included for Projects and routes that the collaborators of this guide do not have first hand knowledge of.

### Seriousness:

- No seriousness rating given, this is generally a safe climb with appropriate padding. There are no extraordinary hazards that you should be aware of.
- △ - This route has insecure moves which are high off the ground or over a bad landing or both. A competent climber who is aware of these hazards will still be able to climb this at a minimally increased risk.
- △△ - There are sections of this climb where the risks are hard to minimize. Falls in certain areas may be unlikely for a climber of appropriate skill level but the consequences of such a fall could be real.
- △△△ - This route could cause serious injury or worse even when attempted by a person competent at climbing the assigned grade. This climb should be approached with caution.

## A Reminder

The rocks do not know what they are called or how they are supposed to be climbed, likewise your experience does not need to depend on this information. Do not let the descriptions, grades, and ratings assigned in this book prevent you from experiencing the rocks as they are.

# The Garden Main

[Navigate to this area](#)

Located about 3.5 miles down quatzville road from highway 20, park in the Gravel pull out where the road bends left just before you reach the boulders. The Garden Main bouldering area is true to its name. A lush green space features moss covered boulders situated under a dense canopy.

## Entrance Area

A cluster of boulders situated inbetween the two main trails.

### Turtle Shell Boulder

A short boulder with a low angle offwidth crack. If approaching on the fight club trail this is the first boulder that you will encounter

#### 1 Raphael Crack V0 ★

Climb the wide crack from a stand start.

#### 2 Donatello V1 ★

start on a flat ledge where the rock angle changes. Slap a low

### Turtle Shell

angle arete until you can hike your feet up. Only somewhat distinct from Leonardo.

#### 3 Leonardo V3 ★

Lay down start with hands ion a low broken flake. With difficulty pull off the ground and slap a slopey ledge traverse up and left until you can rock over onto the downhill face. Sort of like a worse version of boys in the woods.

### Toilet Bowl

### Toilet Bowl

If approaching via the main trail this is the first boulder you will encounter just of the road.

**4 Toilet Bowl V1 ★**

Stand start on a protruding block with left hand on an undercling and right hand on a knob. Pull a few moves to gain the lip of the boulder.

**5 Toilet Bowl Traverse V0 ★★**

Starting on a good rail at the lower left of the boulder. Traverses the lip topping out at the highest point or continue all the way until the boulder recedes into the hill

**Boys in the Woods and Tree Slab****Boys In the Woods**

A low boulder with an identifiable scoop on the downhill side is located on the main trail roughly 150ft uphill from the road.

**6 Boys in the Woods V4 ★★**

Start on a low jug just before the scoop at the lowest part of the boulder. Climb up the left arete of the scoop until you can flop in. Some may consider this an eliminate since, with difficulty, you could also just mantle directly into the scoop.

**7 Cuba Gooding V5**

Start as for Boys in the Woods but climb right along the lip of the scoop until you can reach the holds at the top of Ice Cubes Shiny Jerry Curl

**8 Ice Cubes Shiny Jerry Curl V6**

Start on a low sloping edge and pull some sneaky moves to gain a knife edge crimp at eye level. Continue straight up.

**Tree Slab**

A narrow slab just uphill and to the right of the Boys in the Woods boulder.

**9 Tree Slab V1 ★★**

Climb the center of the slab from a stand start.

**All Sorts of Ease**

A low angle slab under the Meth Lab prow

**10 All Sorts of Ease V0 ★★**

Climb the left side of the face on good holds. Fun, but V0 is generous.

**11 In the Shadow of Giants V1 ★**

Stand start with wide hands. Left hand on thin pinch at head height and right hang on a slightly higher small lumpy edge with a thumb catch. Pull a few delicate moves to gain the lip. A sit start looks doable, but unpleasant.

**Tonsil****Tonsil**

A small hanging prow wedged under a larger hanging prow, which is itself wedged under the Meth Lab prow (a very big hanging prow).

**12 Tonsil V4 ★★**

Step off the boulder below to gain high starting holds. Begin in compression with right hand on a vertical side pull sloper on the blunt right corner and left hand on a juggy undercling. Shorter climbers will have difficulty reaching the starting holds. After establishing the rock below is off.

**13 Unknown Left of Tonsil V2 ☆**

Climbs the boulder below Tonsil. Sit start with low holds on the right arete. Pull a few awkward moves into a cramped top out.

**Three Star Ledge****Three Star Ledge**

Angular boulder in the rocky landscape between the two entrance trails.

**14 Three Star Ledge V2 ★★**

Stand start with hands matched on the ledge. Chuck out to the left arete and follow it to the apex of the boulder. The

small boulders at the base are off.

#### Variations:

##### 14a Three Star Ledge Variation V2 ★★

Squat start with feet on the small boulder below 3 star (it's on this time!) and hands on opposing underclings.

## Fight Club

Located in the southwest corner of the Garden main, The Fight Club zone is home to the namesake V8 test piece as well as several other quality lines. Flat landings and easy access make this a nice spot to spend some time

Fight Club Area Map

Undertow area map

## The Office

A tall not quite vertical boulder is immediately on your right as you enter the Fight Club Area

##### 1 Jim Halpert V1 ☆ ΔΔ

Starting on the right edge of the block climb climb the right corner over a rocky landing. Either pull some harder moves to stay on the downhill face or round the corner to the right and pull some easier moves over a worse landing. Grade and rating unconfirmed.

The Office

##### 2 Daryl Philbin V1 ★★★△

Starting at the Center of the block climb left on good holds to the arete. Climb up the arete until you can reach good face holds up right and continue through a, thankfully, juggy top out. Mind the rock at the base of the climb. Left and right alternative starts add a little variety but do not change the grade.

## Crash Test Dummies

A small boulder in between The Office and Fight Club.

##### 3 Vince V2 ★★

Squat start on good edges. Navigate a crescent shaped sidpull rail to a delicate top out. Make sure to clean the top out before attempting.

Fight Club Right Side

## Fight Club

The obvious overhanging boulder with an interesting bubbly texture.

### Fight Club Left Side

#### 4 The Ear V2 ★ ★ ★

Start on the arete at the far right end of the boulder. Climb straight up through tricky holds to a heady top out.

#### 5 Fight Club V8 ★ ★ ★

Area classic, this rig is a feather in any would be crushers cap. Start on the far right arete as for Ear. Traverse across the angle change and top out above a bubbly crimp rail on the overhanging face.

#### 6 Fight Club Left V?

PLACEHOLDER

#### 7 Brewmaster V?

PLACEHOLDER

### Tyler Durten

Just to the left of the fight club boulder is a tall wall with few features other than a distinctive crimp rail at eye level.

#### 8 Tyler Durten V3 ★

Start on a heinous crimp rail and punch out left to much better holds.

**Variations:**

##### 8a Tyler Durten Dyno V?

It has been speculated that the dyno from the starting hold straight to the lip will go.

### Mini Me

A short pointy boulder with a flat landing is nearly freestanding on the downhill side of the Fight Club zone

#### 9 Mini Me V3 ☆

start on blunt corner. Make tricky moves to a blocky jug to the lip and traverse left to an easy top over a rocky landing

Michael near the top of Fight Club. (See Page 7)

### Trust and Tyler Durten

#### 10 Austin Powers V5 ★ ★

Start as for Mini Me but move right into top of Dr. Evil

#### 11 Dr. Evil V3 ★ ★

sit start in compression with left hand on a low sloper sidepull and right hand on the arete. Pull some tricky moves to gain better holds either rolling onto the right hand slab early or staying on the arete the whole way.

**Variations:**

##### 11a Mr. Bigglesworth V1 ★ ★

Start on your choice of waist high holds, climb straight up the right face or stay left on the arete. Authors note: other guides identify several other variations on this route, this book intentionally omits other variations in preference of encouraging climbers to find their own beta.

### Trust

The Trust boulder sits on an terrace behind Mini Me and to the Left of Tyler Durten

#### 12 Trust V2 ★ ★ ★

Sit start in compression on a hanging refrigerator block. Climb straight up through a slopeing ledge to the top. Look for the juggy crack 1ft inset from the lip.

**Variations:**

**Mini Me****12a Iron Cross V2 ★**

Avoid the committing moves at the lip by traversing left early.

**E's Dirty B****E's Dirty B**

Following a faint trail west traveling past the trust boulder brings you to a Large boulder which almost immediately gives way to low angle slab.

**13 E's Dirty B V5 ★★**

Start with hands matched on a lumpy flake in the back of a small cave. Using slopeing edges out right and a difficult undercling navigate out of the cave trending right at the lip to a jug. The final slab quest is an enjoyable and easy top out.

**Undertow**

Directly uphill from Fightclub are a few quality boulders separated by overgrown trails.

**Silly Steep**

Thin overhanging block left of the Undertow boulder.

**1 Silly Steep Mantle V3 ★★**

Stand start on a high juggy edge below the lip. Figure out how to get your body over the top.

**Undertow downhill face****Undertow East face****Undertow**

Relatively off the beaten path as far as classic garden boulders goes. Follow a faint trail uphill past the trust boulder.

**2 Undertow V3 ★★★**

Start on two boob shaped slopers at head height. Climb straight up using face holds and the right arete.

**Variations:****2a Undertow Sit V6**

Sit start with left hand in a slopey dish and right hand on a low sidepull. Pull some bizarre moves to join into Undertow.

**2b Undertow Sit Right V7 ★★★**

Sit start in the scoop 4ft right of Undertow sit with left hand on a borken sidepull and right hand on a low

**Rob on Riptide (See Page 9)**

undercling, climb into undertow. At one point this line was simply referred to as Undertow, for this book modern naming standards have been conserved.

### 3 **Riptide V3 ★★**

Start as for undertow but trend right around the corner to a juggy hueco top out.

### 4 **Tidepool V?**

PLACEHOLDER

**Car Alarm Downhill Side**

## Car Alarm

This secluded block has a variety of worthwhile beginner climbs. Most of the rock is covered with holds so its also a good spot to play around and make up your own linkups.

### 5 **Car Alarm Traverse V2 ★**

Stand start with hands on an incut rail at the far left end of the wall. Traverse right to pup truck staying below the lip the whole time. The reverse goes at the same grade.

**Car Alarm Uphill Side**

### 6 **White Rhino V1 ★**

Stand start just left of 2 ton Chevy with left hand in a baseball size dish and right hand on the juggy part of a protruding rib. Climb up and left.

### 7 **2 Ton Chevy V1 ★★**

Squat start on a diagonal left hand edge and a shallow 3 finger pocket on your lower right. Climb up two flat ledges to the top.

### 8 **Pup Truck V0 ★★**

squat start on a blunt corner with right hand on a diagonal crimp and left hand in a shallow pocket.

### 9 **Comp Route V1 ★★**

stand start with hands on an undercling at knee height. Using some tricky holds and ramp for your left foot lunge out and left to a jug rail at the lip.

### 10 **Panic Button V0 ★**

Stand start just to the left of a rounded corner with feet on a blocky protrusion and not much for hands. Climb up and along the rounded corner.

#### Variations:

##### 10a **Panic Button Variation V2 ★**

Sit start and pull into the start of Panic Button instead of topping right head left over the techy slab.

## Chockstone Highball

### 11 **Chockstone Highball V4**

PLACEHOLDER

## Meth Lab

Easily the most recognizable feature at the Garden, the Meth Lab boulder towers over all other stones in the main area. Most climbs for this zone are located in a secluded natural amphitheater on the uphill side of the boulder.

## Meth Lab

Routes listed in counter clockwise order beginning under the large prow of the downhill face.

### 1 **Meth Lab Project V? ▲▲▲**

The obvious prow on the front of the Meth Lab boulder has a bolted top rope anchor but a route up it has likely never been free'ed by any means. The ethics of climbing this behemoth are contentious but in my opion it is fair game to bolt as a

Methlab East Face

**Carson landing the big throw on Octurnal. Classic! (See Page 10)**

Meth Lab uphill face

sport route. If you have the desire to do so consider working it out on TR first before placing new equipment.

## 2 Don't Blow the Jug V2 ★★▲

Start at the base of the wide crack. Climb inverted in the offwidth until you can make use of a jug to squeeze into the crack. Walk through the crack to the far side of the boulder.

## 3 Trust Issues V8 ▲▲

PLACEHOLDER

## 4 Leave It to Jesus V2 ★★★

Also known as Showboat. Start with hands on sloping edges. Use one or two intermediate holds to reposition yourself and make a long pull to the lip. Short but brilliant.

**Variations:**

### 4a Leave it to Jesus Sit V8

PLACEHOLDER

## 5 Smackdown V7 ★★

Start standing with left hand gaston and right hand jug sidepull. Crank some powerful moves on bad feet and follow the line of crimps to a top out left

**Variations:**

### 5a Harbor Freight V8 ★★★

Sit down start with hands matched on a blocky undercling, climb into Smackdown. This variation was literally unearthed when a local climber yanked a large rock out from the landing of Smackdown using a chain and come along. The device broke in the process inspiring the name of the route.

## 6 Heisenburg V9

PLACEHOLDER

## 7 Learys Lunge V9

PLACEHOLDER

Swollen Member and Inner Sanctum

## Swollen Member

A small prow just out of the hill side above the Meth Lab boulder protrudes at a provocative angle.

**11 Swollen Member V3 ★★**

A classic hazing route. Start hugging the underside of the block underside with good hand holds on each side of the stubby prow. Manuver youself into a less scandalous orientation using toe hooks, heel hooks and all manner of dirty tricks.

**Inner Sanctum**

Slabby boulder to the left of Swollen Member.

**12 Inner Sanctum V1 ★★ △**

Stand start with left hand on a slopey ledge and right hand on a diagonal incut seam. Pull yourself onto the ledge and climb a tenuous slab using a blunt corner for your right hand.

**Variations:****12a Inner Sanctum Sit V3 ★**

Sit start with left hand on a diagonal undercling rail and right hand on a low diagonal side pull edge. Doesn't add much to the stand start.

**13 Outer Sanctum V1 ★**

Start as for Inner Sanctum but pull yourself around the blunt corner into a mossy scoop. Continue right to an easy top out.

**Enchilada****E's Boulder**

A large boulder directly to the right of Octurnal holds a few notable routes.

**14 Slam Dunk V7**

PLACEHOLDER

**15 E's V7**

PLACEHOLDER

**16 Enchilada V9 ★★**

Start matched on a good flat rail low to the ground with some awkward feet options. Cross into a comfortable crimp and fire up left before coming back right to a flat jug. Pretty classic as far as low balls go!

**The Bubbler**

A small unassuming block sits just downhill of E's boulder.

**Big****Bitchin Corners****Bitchin Corners**

A neet angular face sits on the downhill of an otherwise unremarkable boulder.

**1 Bitchin Corners V2**

PLACEHOLDER

**Variations:****1a Bitchin Corners Sit V6**

PLACEHOLDER

**Big**

The "Big" boulder is a large moss covered boulder on the eastern boundary of the Garden Main area, in other guides this has also been called "roadside", and "North Block"

**2 All Bernd Up V10**

PLACEHOLDER

**Hueco Wabo**

An aesthetic boulder sits well off the beaten path

**3 Hueco Wabo V3**

Stand start on good side pull underclings pull some rad moves to an insecure, scary top out. It's possible to bail right at almost any point on this route, but that's no fun. A sit start might also exist but looks unfun. Grade unconfirmed.

**Baldo****4 Frontside Baldo V2 ★★**

Sit start with left hand on a juggy side pull and right hand at the bottom of the diagonal crack. Climb the triangular face using the crack and holds on both aretes.

**Azain**

Azain is a jumbled collection of rocks which forms the highest point of the Garden main.

**Hueco Wabo****The Good****4 Next To the Good V3 ★ ▲**

Stand start with right hand on a crimp rail under the overhang and left on a high diagonal side pull. A few burly moves give way to a low angle slab. Bailing into the gully instead of climbing the upper slab doesn't change the grade, but it is cheating.

**Baldo****The Good**

Continuing up the main trail from Boys in the Woods leads to a good boulder with two routes on the downhill face.

**1 The Good Slab V1 ★ ★**

Squat start on an incut flake at knee height. Climb the slab around the corner from The Good.

**2 The Good V3 ★ ★**

Start matched on a juggy flake on the right side of the boulder's downhill face.

**3 Another V3 ★ ▲**

start with opposing sidepulls on the center of the boulder's downhill face. Traverse to the left arete and ascend using delicate feet and unideal hands. Mind the uneven landing. Aggressive cleaning has revealed that the dirty ledge to the left of the rock is in fact part of the rock so stepping off here is still on route I guess, but its cooler if you don't.

**Next to The Good**

A slender boulder hangs off the ground to the left of the Good.

**Night Crawler****Night Crawler**

This iconic double arete boulder hangs like a throne near the top of the Azain formation.

**5 Night Crawler V10**

PLACEHOLDER

**Azain Spire**

A thin triangular flake stands on end behind swollen member and in front of Azain

**6 Snakes and Martyrs V0 ★ ★ ★**

Stand start in a juggy seam. Could be scary if you are uncomfortable climbing outside.

## Azain Spire

### Azain Front Side

The tall walls of the Azain front side are located just off the main trail behind The Good.

#### 7 Ground Up Blowie V5 ★ ★

Start at the base of a diagonal finger crack. Follow the crack around a dabby tree and onto an easy slab. This route was named as an omage to the first ascent when the top out was cleaned via leafblower from a stance mid route.

#### 8 Into the Light V6

PLACEHOLDER

**Variations:**

##### 8a Into the Light Sit V9

PLACEHOLDER

#### 9 Azain Crack V?

PLACEHOLDER

### Azain Back Side

Continuing up the main trail will bring you between the Azain and Big Fred boulders to the Azain backside.

#### 10 Locksmith V4 ★ ★ ★ ▲▲

Also known as Hula. Sit start with a juggy left hand sidepull and right hand on an undercling edge. Pull a few crimp moves until you can reach a good hold on the arete. Rock over onto the slab and quest to the top. Be sure to clean the upper section before attempting this rig.

**Variations:**

##### 10a Brain Haemorrhage V7

Start as for locksmith and traverse right into philanthropy

#### 11 Philanthropy V4

PLACEHOLDER

#### 12 Full Stokes V2

PLACEHOLDER

#### 13 Garden Project V?

Project. Sit start at the base of the low roof and climb into garden variety or Full Stokes. Once climbed this will be one of the hardest routes in Oregon.

Andrew strugling to finde a finger lock on Ground up Blowie (See Page 13)

#### 14 Garden Variety V7

PLACEHOLDER

#### 15 The Arboretum V11

PLACEHOLDER

#### 16 The Other Bernd V10

PLACEHOLDER

#### 17 The Siren V5 ★ ★ ★

Sit start at the base of the prow with one hand on an incut ledge and the other on the slopey rib below. Climb the prow using a few different beta options. This route is also refered to as "Witch Hunt".

**Variations:**

##### 17a The Siren Stand Start V3 ★ ★

Start with your left hand on the left arete and right hand on a good sidepull just above the sit start holds.

#### 18 Gumby Arete V2 ★ ★

Stand start on underclings at the left side of the face. Challenge yourself by staying on the Arete the whole way up or bail onto the ledge out right and top as for Gumby Slab.

#### 19 Gumby Slab V1 ★ ★ ★

Stand start in the center of the face. This can be scary if not used to climbing outdoors.

**Variations:**

##### 19a Bag of Tricks V3 ★

Start as for Siren and traverse right topping on either Gumby Arete or Gumby Slab.

**Intro Boulder**

**The Bread Loaves**

**Lower Bread Loaf**

# Quartzville Creek

About an hour further down the road from the main area there are a few interesting boulders in a creek. Generally lower temperatures, free camping, and pleasant swimming holes make this a nice mid summer spot.

## Redneck Riviera

[Navigate to this sub area](#)

Redneck riviera is located on Quartzville road apporximately 20.6 miles from highway 20 park in the gravel pull out on the creek side of the road. This is a nice spot with good swimming access and a few established routes on both sides of the river. The locals like to use this spot to pan for gold. In my experience they are friendly and willing to share the space.
